

LiFePO4 Battery Bluetooth APP Manual

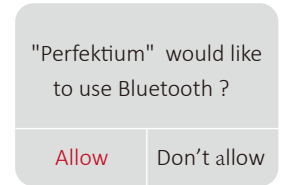

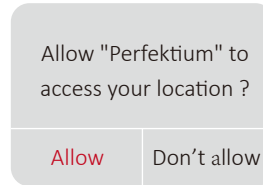

1. Download and Connect

1.1 Download

⚡ Please download the Bluetooth APP "PERFEKTIUM" from the Apple Store or Google Play, or scan the following QR code to download it.

⚡ Please open PERFEKTIUM APP and click "Allow" when the APP asks for the location, and Bluetooth permission.

⚠️ **WARMLY WARNING:** The battery is connected via the PERFEKTIUM App, not directly via the smartphone's Bluetooth.

1.2 Connect

⚡ You can find a list of available batteries on the display page. Each battery has its corresponding serial number. You can choose your battery.

When you need to open the bluetooth connection, please click the bluetooth button "Connected" to open the bluetooth APP, it will connect the battery.

2. Monitoring

⚡ Real-time display of parameter values such as Remaining capacity, Voltage, Temperature, Power, Cycle Life, etc. In the form of instrument panels and numbers.

⚠️ When your Bluetooth is connected to the battery, it will automatically jump to the page.

⚠️ BMS will automatically equalize the cell voltage.

3. Display of history

⚡ This page records the historical data of the battery, which is convenient for users to observe and analyze.

4. Display of user

⚡ The information on this page is used to allow users to contact our staff through the contact information on this page if they are confused about the operation.
